OBJECTIVE

Dynamic MERN Stack Developer skilled in crafting scalable web applications. Expertise in MongoDB, Express.js, React, Node.js, and RESTful API design. Strong problem-solving and collaboration skills. Experienced in leveraging Generative AI and quickly adopting new technologies to enhance development efficiency.

EXPERIENCE

Senior Software Support Executive | Humani Media Consultancy (JMSC POS)

2022 – Present

- Diagnosed and resolved complex technical issues to ensure seamless software operation, directly contributing to system reliability and user satisfaction.
- Managed and optimized MySQL databases, maintaining data integrity to support vital business applications.
- Implemented effective end-to-end technical support solutions, enhancing overall system performance and operational efficiency.

Freelance Web Developer | Self-employed - Remote

2023 – Present

- Designed and developed responsive websites and web applications for various clients using HTML, CSS, JavaScript, and React.js.
- Collaborated with clients to gather requirements, propose solutions, and deliver custom websites tailored to business needs.
- Ensured cross-browser compatibility and mobile responsiveness across all major platforms.
- Maintained and updated existing client websites, fixed bugs, and improved UI/UX based on feedback.
- Used Git and GitHub for version control and project collaboration.
- Delivered projects within deadlines and maintained ongoing support and communication with clients.

EDUCATION

Bachelors in Computer Application | Dr. Babasaheb Ambedkar Open University

2022 – Present

Ahmedabad, Gujarat

Aircraft Maintenance Engineering | Thakur Institute of Aviation Technology

2012 – 2015

Mumbai, Maharashtra

Full-stack Web Development | Masai School

2024 – Present

Remote - online
